

MAINTENANCE ACCESS PANEL

Low-profile removable access cover

Discreet access for concealed lighting drivers and service points

PSMB02-WT — White

PSMB01-DG — Deep Grey

KEY FEATURES

- ✓ Low-profile 10 mm cover
 - ✓ Four spring clips for secure retention
 - ✓ Removable panel for maintenance access
 - ✓ Clean, flush finished appearance
 - ✓ White and deep-grey finish options
- Designed to provide discreet access to concealed maintenance points such as LED drivers and service connections, subject to project and installation requirements.

INSTALLATION CONTEXT

SPRING-CLIP RETENTION

INSTALLATION STEPS

1. Confirm the required opening and clearance for the concealed equipment.
2. Compress the spring clips and insert the panel into the prepared opening.
3. Release the clips so the cover sits evenly and remains removable for future access.

DIMENSIONS

260 × 100 × 10 mm

260 mm long × 100 mm wide × 10 mm deep

Overall dimensions shown. Verify opening size, clearances and suitability before installation.
